Chaplain's Prayer

'We commit to your continuing protection Lord all our crops and local farm businesses/industry from farm to shop...We pray that Almighty God who rules the seasons, will grant us timely seasonal weather to prepare the ground for the coming season of growth, so that our fields being free from pests and diseases may supply all the needs in abundance and produce a good living for those working on the land!'

Many farmers have discovered the benefits of setting up farm shops and selling their products locally!? Accountability in all we do(I believe) is an important way of life and living? Visiting your local farm shop supports local community directly, strengthens the local economy and makes the task of food production more personal in every way...seeing on the label exactly where the food your buying comes from is really satisfying 😊

In the Bleak mid Winter we are mindful of those struggling to survive both mentally and physically...here are organisations you can immediately contact if you need help or have a worry that you need to offload with someone. Please remember to look out for your neighbouring farmer who may be finding life more than difficult 😞 You can also get contact details for help at the market!
