A muscle machine, this young bull not only appears full of potential but has the genetics to back it up. A major outcross with a traditional Hereford dam, she is full of milk, breed type and very easy calving. Coupled with Remus's sire 'Fabb 1 Noak', the first son in the UK by the world renowned 'Bare Mr UTube', Canadian Western Agribition Supreme Interbreed Champion. The sire has unbelievable muscling, length and breed type, along with perfect locomotion and one of the easiest calving bulls around. A flashy young bull, Remus being easy calving, is ideal for dairy heifers or cows along with having the muscle and maternal traits for a suckler herd later this year. Built and treated like Herefords should be he has been batch reared with other bulls, outwintered until late winter he hasn't been pampered. His first paternal brother has already sold to a pedigree show herd in a private deal; we have no doubt he would also be the ideal bull to take a pedigree to the next level, adding muscle, style and ease of management; make Midford 1 Remus your pick.
