DM, PM & AD DRAKE EAST KNOYLE

The heifers on offer today are of a very good British Friesian type and are the first consignment of young stock following the herd dispersal which was held in January 2024. The herd has been closed for a number of years and the heifers are home bred, BVD free, vaccinated for salmonella as calves and both cubicle and electric fence trained. The first five heifers in the catalogue were sired by Genus Sire 'Inchland'. The remainder are granddaughters of 'Dungormley Chad Jacob' and sired by one of his non-registered home bred bulls.

The heifers are in good condition and are an excellent example of their type. The stock sire ran between 2nd December and end of March 2024 although it is anticipated that the majority of the heifers on offer were served within 6-8 weeks of 2nd December 2023. The animals on offer were PD+ on the 2nd July 2024 and a pre-movement TB test was carried out on the 25th June 2024.
