BLUE TONGUE UPDATE WEDNESDAY 26TH MARCH

DEFRA have announced a temporary easing of pre-movement testing for Blue tongue for non-breeding livestock leaving the restricted zone. Specific licence EXD632 is still required but non-breeding cattle, goats and sheep over 60 days can now move without a BT pre-movement test. Only the following animals still require testing:

- Entire males intended for breeding
- Pregnant females (or pregnancy status unknown)
- Stock aged 60 days or younger (unless travelling at foot with the maternal dam where the maternal dam should be tested by PCR and ELISA)

This is a temporary change that will apply until 23rd April 2025 unless transmission rates increase.
