Farm assurance certification is linked to all the holdings that an animal has been on in the last 90 days. If any holding in the last 90 days is not farm assured, the animal is classified as non assured. All holding numbers that your stock will use must either be linked to your farm assurance number or have a farm assurance number in their own right. Please affix a valid farm assurance sticker on your entry form. **NO STICKER = SOLD AS NON ASSURED.**
15. **NAMED SIREs:** Stringent measures are now in force, specifically DNA testing, when animals enter rearing units and/or at the point of slaughter to check that they are by the registered sire provided. If you run a number of registered bulls of the same breed, please make sure you specify either which bull sired which animal or provide all possibilities on your entry form. If you run a number of bulls of different breeds, we advise either keeping the bulls separate or DNA testing the calves to make sure the correct breed and sire is selected at time of registration. If at point of sale you are not 100% sure, **DO NOT** sell your animal(s) with a registered sire. There will be financial penalties if the sire declared proves to be incorrect.
