**Scoring: Mobility, Condition, Rumen:** Our VetTech is a ROMS trained mobility scorer, providing you with a clear and simple report helping to improve herd health and meet the increasing standards demanded by Red Tractor and many milk contracts. Each report shows the progress since the last assessment and problem cows are clearly identified for treatment if required.

Anna Smith - VetTech Our New VetTech

**Calf Routines:** are new services we are offering for youngstock. These include growth checks/calf weighing, disbudding, vaccinations, colostrum immunity testing and reports. These routines ease your workload and ensure youngstock are getting quality and regular care, keeping every animal up to date with disbudding and vaccinations and taking the pressure off you. You can make use of these services at a frequency that works for your farm e.g. weekly, fortnightly or monthly.

**Fly control:** We have a new way to deal with the pesky flies that drive us all mad every year. Clover Friendly Flies are pteromalid wasps, also known as fly parasites. They attack fly larvae, reducing the number of larvae that turn in to flies. This is a sustainable approach to fly control, leading to less fly treatment being needed for your animals and in the parlour.

**Small Holder Services:** We are offering full detailed health calendars and services to help our smallholders stay on top of routine treatments, such as hoof care, vaccinations, faecal egg counts, worming and much more. Our VetTech will provide regular reminders for routine interventions and can attend your holding to give any help needed in administering treatment.

**Samples:** Our VetTech is trained to collect a variety of samples for diagnostic testing e.g. Faecal egg counts, bloods, milk samples for disease identification and will issue reminders for routine testing.

#### Anything else?

Or if you just need extra hand for few hours, whether that is needing extra labour for your tb test, vaccinating, or even just getting sheep in from the field ready for lambing, give us a shout and we might be able to help. It can save you paying someone for all day or if you're struggling for staff.

Cracking heavies from Pat Apsey flew to £145 and 266p/kg. Overall an average of 244p/kg which would have been pegged by leaner lambs.

**CONTINENTAL**

Frome certainly "bucking the trend" with regards to both quality and trade in the Continentals this week. A number of quality suckled younger steers and heifers met with strong prices throughout and generally more buyers keen to purchase. Young, smart Blue x steers and heifers 9mo from Tim Handy, Purton were well sold at £865 and £720. His older more forward heifers 21mo saw blistering prices at £1115 and £1035. This week saw Alan Pike & family presenting their second consignment of 2022. Their well bred Blonde x young Continentals were keenly sought 10 – 14mo steers regularly over £900 topping at an excellent £995 and heifers to £820.

A wonderful run of 23 Charolais once again from Derek & Graham Stevens commanded premium prices. We pray especially for all Farmers here at home coping with these drought conditions, and whose Rhythm and Livelihood are being severely challenged... Lord Please send us rain!

Everyone loves a good day out occasionally; Good for the mind and body! Frome Show is only just over a month away (10 Sept) and My local Mid Somerset show is on Sunday August 21. Many local food and drink producers attend to show their products to the public and celebrate the countryside, and you always end up meeting up with friends you haven't seen for ages!

- Here at Frome market, we are looking at the feasibility of blood testing screening for prostate problems. Many people may have a problem in this area and have not ever had it checked. We shall keep you informed as soon as we have more detail!

If you need to chat about the above or any other problems, remember The NHS health hub twice monthly who attend the market. I can be reached on 07880770887 if anyone wants help or support! Blessings to you and yours this week and always!
