FROME MARKET CAFÉ – CHANGE OF MANAGEMENT

From Monday 7th August 2023, Frome Livestock Auctioneers will be taking the Frome Market Café back in hand.

We are pleased to announce that Kate Isgar of Poplar Farm Outpost will be assisting with the transition as a consultant. Kate already runs a successful catering business and as a well-known farmer in Somerset, Kate is very well placed to help us with the restructure and future management.

We thank Dean Carr of The Market Table for his service and hard work at Frome Market and we wish Dean the best of luck in his next venture.

The café will be open for the remainder of this week including Sunday 6th as normal.

Wednesday 9th and Friday 11th August the café will be closed however alternative catering facilities will be provided.

The Café will be open from the week commencing Monday 14th August as normal.

We look forward to providing the best possible service to farmers and new customers at the market café going forward.

- TB Testing • Medicine Deliveries • Freeze Branding

Vaccinations: Whole herd vaccinations to regular youngstock vaccinating, reminders, deliveries, and administration.

Scoring: Mobility, Condition, Rumen: Our VetTech is a ROMS trained mobility scorer, providing you with a clear and simple report helping to improve herd health and meet the increasing standards demanded by Red Tractor and many milk contracts. Each report shows the progress since the last assessment and problem cows are clearly identified for treatment if required.

Jade Scot-Dalglish Our
New VetTech

Calf Routines: are new services we are offering for youngstock. These include growth checks/calf weighing, disbudding, vaccinations, colostrum immunity testing and reports. These routines ease your workload and ensure youngstock are getting quality and regular care, keeping every animal up to date with disbudding and vaccinations and taking the pressure off you. You can make use of these services at a frequency that works for your farm e.g. weekly, fortnightly or monthly.

Fly control: We have a new way to deal with the pesky flies that drive us all mad every year. Clover Friendly Flies are pteromalid wasps, also known as fly parasites. They attack fly larvae, reducing the number of larvae that turn in to flies. This is a sustainable approach to fly control, leading to less fly treatment being needed for your animals and in the parlour.

Small Holder Services: We are offering full detailed health calendars and services to help our smallholders stay on top of routine treatments, such as hoof care, vaccinations, faecal egg counts, worming and much more. Our VetTech will provide regular reminders for routine interventions and can attend your holding to give any help needed in administering treatment.

Samples: Our VetTech is trained to collect a variety of samples for diagnostic testing e.g.

Faecal egg counts, bloods, milk samples for disease identification and will issue reminders for routine testing.

Anything else?

Or if you just need extra hand for few hours, whether that is needing extra labour for your tb test, vaccinating, or even just getting sheep in from the field ready for lambing, give us a shout and we might be able to help. It can save you paying someone for all day or if you're struggling for staff.

REARED CALVES (149) Start 12.30pm

AUCTIONEER: TOM ROGERS 07384 462288

A strong entry of weaned calves met a very firm trade. Fair to say a few were bordering on the older side for this section but plenty of interest and all were well sold. Another grand entry of 60 Blue and Angus steers and heifers from Mark Peters, Sussex commanded brisk bidding. His 7 – 8mo Blue steers topped at £690 and heifers at £635. Buyers wanting the best Continentals and prepared to pay for the right goods. Angus were wanted with some super types again from Mark Peters saw best steers to £605 and heifers to £542. Leaner sorts generally £400 - £480. High House Farms of Dorchester presented a large run of Angus and Stabiliser steers and heifers; these hard out grazing cattle saw good interest throughout. Angus steers 9 – 10mo sold from £480 - £532 with heifers from £400 to £440. Stabiliser topped at £530 with heifers to £440. Only limited Hereford x forward but all wanted. A handful of Friesian were very variable in quality and sold to a level trade. Overall, more well reared calves 3-4mo could have produced keen demand but generally in short supply.

FARMING IN PROTECTED LANDSCAPES

A FUNDING PROGRAMME
FOR FARMERS & LANDOWNERS
LOCATED IN CRANBORNE CHASE AONB

Open for applications until January 2025

DO YOU HAVE A GREAT IDEA?

- Promoting connectivity between habitats -
- Increasing in farm biodiversity - Actions to improve soil health -
- Creating wetlands to support a variety of wildlife and reduce flood risk -
- Help the public develop skills in land management -
- Creating walks providing new access opportunities -
- Innovative equipment or farm practices to transition towards regenerative agriculture -

FUNDING
AWARDED

£1,000 to £150K

Cranborne Chase AONB administers this Defra funded programme. Farming in Protected Landscapes runs until the end of March 2025 and is part of Defra's Agricultural Transition Plan.

Your project must meet **at least one** of the outcomes listed below and at least **one of the objectives** of the Cranborne Chase AONB Management Plan. Scan here to view.

CLIMATE

- More carbon is stored and/or sequestered
- Flood risk is reduced
- Farmers, land managers and the public better understand what different habitats and land uses can store carbon and reduce carbon emissions
- The landscape is more resilient to climate change

PEOPLE

- There are more opportunities for people to explore, enjoy and understand the landscape
- There are more opportunities for more diverse audiences to explore, enjoy and understand the landscape
- There is greater public engagement in land management, such as through volunteering
- Farmers and land managers feel increasingly comfortable with providing public goods

NATURE

- There is a greater area of habitat improved for biodiversity
- There is an increase in biodiversity
- There is greater connectivity between habitats
- Existing habitat is better managed

PLACE

- The quality and character of the landscape is reinforced or enhanced
- Historic structures and features are conserved, enhanced or interpreted more effectively
- There is an increase in farm business resilience (you must deliver this equally balanced with other outcomes)

Applications for over £10,000 will be judged by a Local Assessment Panel. The Panel of 8 to 12 people includes representatives from Cranborne Chase AONB, Natural England and the farming and land management community as well as local specialists. The panel meets every 6 to 8 weeks. Applications for less than £10,000 are decided upon by a senior member of the AONB team (who has no prior knowledge of the project). All projects are to be completed by 31st March 2025.

Quotes must be received for each element of work in every application where Countryside Stewardship rates or rates from other agricultural support streams do not apply.

Chaplain's Prayer

'Two are better than one, because they have a better return for their labour. If either of them falls, one can help the other up(Ecclesiastes 4, v 9-10)We give thanks this week for the way in which The Farming Community Network volunteers try to walk alongside others in friendship ❤️ we pray for all those who feel themselves to be friend-less, especially within our own farming community? Here are the numbers and emails you can contact,completely confidentially...FCN: 03000 111 999, help@fcn.org.uk RABI: practical care, guidance, financial help to all farming people...0808 281 9490 and in an emergency Samaritans, 365 days 24h, 116 123, jo@samaritans.org

A carbon project development company... Regeneration Earth have announced the launch of a CARBON CREDIT MARKETPLACE. This offers farmers/landowners the opportunity to generate £100/tonne of carbon! Selling credits they earn for managing their land in a more sustainable way!? It's currently 4/5 times more than elsewhere in the market. This approach seems to me to be a positive way forward to help tackle climate change 😊

I saw this recently: 'Don't Walk behind me, I may not lead; Don't walk in front of me, I may not follow; Just walk beside me and be my friend!'

Myself and my colleague Paul Watts(FCN) are here at the market most Wednesdays... please do approach us for a chat about anything at all...We don't bite, and won't judge you!!

Remember your neighbours as you would yourself 🙏
