Vaccinations: Whole herd vaccinations to regular youngstock vaccinating, reminders, deliveries, and administration.

Scoring: Mobility, Condition, Rumen: Our VetTech is a ROMS trained mobility scorer, providing you with a clear and simple report helping to improve herd health and meet the increasing standards demanded by Red Tractor and many milk contracts. Each report shows the progress since the last assessment and problem cows are clearly identified for treatment if required.

Jade Scott-Dalgleish Our
New VetTech

Calf Routines: are new services we are offering for youngstock. These include growth checks/calf weighing, disbudding, vaccinations, colostrum immunity testing and reports. These routines ease your workload and ensure youngstock are getting quality and regular care, keeping every animal up to date with disbudding and vaccinations and taking the pressure off you. You can make use of these services at a frequency that works for your farm e.g. weekly, fortnightly or monthly.

Fly control: We have a new way to deal with the pesky flies that drive us all mad every year. Clover Friendly Flies are pteromalid wasps, also known as fly parasites. They attack fly larvae, reducing the number of larvae that turn in to flies. This is a sustainable approach to fly control, leading to less fly treatment being needed for your animals and in the parlour.

Small Holder Services: We are offering full detailed health calendars and services to help our smallholders stay on top of routine treatments, such as hoof care, vaccinations, faecal egg counts, worming and much more. Our VetTech will provide regular reminders for routine interventions and can attend your holding to give any help needed in administering treatment.

Samples: Our VetTech is trained to collect a variety of samples for diagnostic testing e.g.

Faecal egg counts, bloods, milk samples for disease identification and will issue reminders for routine testing.

Anything else?

Or if you just need extra hand for few hours, whether that is needing extra labour for your tb test, vaccinating, or even just getting sheep in from the field ready for lambing, give us a shout and we might be able to help. It can save you paying someone for all day or if you're struggling for staff.

'Be strong and courageous, do not be afraid, do not be discouraged, for the Lord your God will be with you wherever you go!' 🙏 Joshua. There is to be an increase to payment rates for a

range of **Higher Level Stewardship (HLS)** options.... thousands of farmers will benefit from a **£30m** boost to payments received for nature friendly farming practices under the **HLS scheme**. This uplift recognises and rewards the vital role farmers play in restoring and maintaining habitats and protecting England's

iconic Landscapes. This funding will bring HLS rates closer to **Environmental Land Management** schemes. Payments start from this coming December 25. I'm writing this on the last day of the Bath and West! I'll be on the **FCN** stand this afternoon...Let's hope many of you have enjoyed this very pro farming show too 🤝 The **Farming Community Network (FCN)** are alive and kicking helping Farmers and their families wherever they can! ❤️ We are not allowed to give direct advice, these are some ways we can help:-

2. Provide links to the Farm Resilience Fund via Gov.uk...
3. Connect with CAB (debt support, benefits check)
4. Connect with **RABI** ..if **specific** personal welfare costs exist, eg: school uniforms, White goods, temporary staff, (NB they cannot provide finance for general business costs)
5. **Addington fund/Forage aid**..if severe weather has affected livestock feed availability.
6. Ongoing Pastoral walking alongside with support and encouragement! Even if practical solutions aren't immediately obvious...
7. Connect with local groups or organisations that may be relevant.
