Chaplains Prayer

Genesis 2.15: 'Then the Lord took the man and put him in the garden of Eden to tend and keep it' This verse reminds us of our responsibility to our common home!? God of Blessings, the universe sings of your Glory 🙏 Deepen our gratitude for all you have made, and awaken in us a **renewed commitment to care** for the earth, our animals, and most importantly each other!

I was pleased to see that Bluetongue movement restrictions have now been removed...but only because the disease affected area is now too extensive for any movement restrictions to be effective. The fight to eradicate this insidious disease continues!

Farmers can now apply for a screening study with the EA to assess and rank water resources options to increase your water supply resilience as part of a group of neighbouring farmers...this could be vitally important for those relying on water supply for especially sensitive crops!?

Inspire our world leaders with openness to listen to those most affected by climate change and with courage and to act urgently and wisely so that our common home may gradually be restored and healed and all people and generations to come may delight in it 🙏!

We think especially of those within our farming community who are working and caring for the environment, and we give thanks for their commitment, passion, perseverance in all kinds of weather and conditions. Please remember, that even as individuals and seemingly not doing much we can **All make a collective difference!!**
