Vaccinations: Whole herd vaccinations to regular youngstock vaccinating, reminders, deliveries, and administration.

Scoring: Mobility, Condition, Rumen: Our VetTech is a ROMS trained mobility scorer, providing you with a clear and simple report helping to improve herd health and meet the increasing standards demanded by Red Tractor and many milk contracts. Each report shows the progress since the last assessment and problem cows are clearly identified for treatment if required.

Jade Scott-Dalglish Our New VetTech

Calf Routines: are new services we are offering for youngstock. These include growth checks/calf weighing, disbudding, vaccinations, colostrum immunity testing and reports. These routines ease your workload and ensure youngstock are getting quality and regular care, keeping every animal up to date with disbudding and vaccinations and taking the pressure off you. You can make use of these services at a frequency that works for your farm e.g. weekly, fortnightly or monthly.

Fly control: We have a new way to deal with the pesky flies that drive us all mad every year. Clover Friendly Flies are pteromalid wasps, also known as fly parasites. They attack fly larvae, reducing the number of larvae that turn in to flies. This is a sustainable approach to fly control, leading to less fly treatment being needed for your animals and in the parlour.

Small Holder Services: We are offering full detailed health calendars and services to help our smallholders stay on top of routine treatments, such as hoof care, vaccinations, faecal egg counts, worming and much more. Our VetTech will provide regular reminders for routine interventions and can attend your holding to give any help needed in administering treatment.

Samples: Our VetTech is trained to collect a variety of samples for diagnostic testing e.g.

Faecal egg counts, bloods, milk samples for disease identification and will issue reminders for routine testing.

Anything else?

Or if you just need extra hand for few hours, whether that is needing extra labour for your tb test, vaccinating, or even just getting sheep in from the field ready for lambing, give us a shout and we might be able to help. It can save you paying someone for all day or if you're struggling for staff.

Chaplains Prayer

“You visit the earth and cause it to overflow! You greatly enrich it!” Psalm 65 Thank you God for your provision...we are grateful for everything you provide! Keep us gentle, yet firm when needed; generous yet also open to receive. Let us see your face in those who want to help us. Hold our family close and help us to be sensitive to their needs also as we do our best to cope with the stress of everyday problems!?

The Farming community network (FCN) is always here to help... whether in person, online or by phone...a non judgemental listening ear. 03000 111 999/ help@fcn.org.uk Also the R.A.B.I 0808 281 9490 and the Samaritans jo@samaritans.org or 116 123 open Mental Health 01823276892. Altercations and accidents happen on our roads, and when they do, it's often useful to have dashcam evidence for insurance and potential prosecution!?

The public hasn't much patience when following slow farm vehicles...and so very often take chances out of frustration!! Decent quality models of cam are around £100-£150. Of course, it's possible to spend a lot more too! To read more about staying safe on roads visit fwi.co.uk/machinery/road-legal. Our police force has an online page where footage and a statement can be uploaded. Research from Bangor university are examining the impact of dietary choices on health and Wellbeing outcomes among UK farmers. If you have a mind to please fill in a short survey to provide insights!?

It's amazing how much better both mentally and physically one can feel by eating the right foods in the correct amounts! 😊 [https://app.onlinesurveys.jisc.ac.uk/s/ray/exploring – the-impact-of-dietary-choices-on-food-related-ill-health](https://app.onlinesurveys.jisc.ac.uk/s/ray/exploring-the-impact-of-dietary-choices-on-food-related-ill-health). We think of all those working hard to complete the farming tasks that need to be done in timely fashion this Autumn.. ploughing, sowing, harvesting etc....We pray for all those struggling to survive one day to the next.

Remember to keep Wednesday 22 October free in the evening for our Market **Harvest Service/auction/supper** Tickets will be available very soon at the office..
