**Vaccinations:** Whole herd vaccinations to regular youngstock vaccinating, reminders, deliveries, and administration.

**Scoring: Mobility, Condition, Rumen:** Our VetTech is a ROMS trained mobility scorer, providing you with a clear and simple report helping to improve herd health and meet the increasing standards demanded by Red Tractor and many milk contracts. Each report shows the progress since the last assessment and problem cows are clearly identified for treatment if required.

Jade Scott-Dalgleish Our  
VetTech

**Calf Routines:** are new services we are offering for youngstock. These include growth checks/calf weighing, disbudding, vaccinations, colostrum immunity testing and reports. These routines ease your workload and ensure youngstock are getting quality and regular care, keeping every animal up to date with disbudding and vaccinations and taking the pressure off you. You can make use of these services at a frequency that works for your farm e.g. weekly, fortnightly or monthly.

**Fly control:** We have a new way to deal with the pesky flies that drive us all mad every year. Clover Friendly Flies are pteromalid wasps, also known as fly parasites. They attack fly larvae, reducing the number of larvae that turn in to flies. This is a sustainable approach to fly control, leading to less fly treatment being needed for your animals and in the parlour.

**Small Holder Services:** We are offering full detailed health calendars and services to help our smallholders stay on top of routine treatments, such as hoof care, vaccinations, faecal egg counts, worming and much more. Our VetTech will provide regular reminders for routine interventions and can attend your holding to give any help needed in administering treatment.

**Samples:** Our VetTech is trained to collect a variety of samples for diagnostic testing e.g.

Faecal egg counts, bloods, milk samples for disease identification and will issue reminders for routine testing.

#### Anything else?

Or if you just need extra hand for few hours, whether that is needing extra labour for your tb test, vaccinating, or even just getting sheep in from the field ready for lambing, give us a shout and we might be able to help. It can save you paying someone for all day or if you're struggling for staff.

## Chaplains Prayer

A Farmers Prayer: As I rise with the dawn, I drink in the morning! I taste the goodness of your creation and smell the crispness of new beginnings 😊 I sense you beside me, my good shepherd watching over me as I care for the farm. I whistle a tune of praise as I go about my work! I feel Blessed to walk in the long lived rhythms of sowing, feeding and reaping. Fill me anew today and every day Lord with your Spirit. Give me strength and Health when I feel tired or weary. I release my anxious thoughts and worries to you, knowing that you hear my prayer! Please Bless my farm, my home, my family. Bless the work of my hands. 🙏 Please remind me each morning to give thanks to you Anew, my Lord and saviour! 🙏❤️ (Anon)

If you or anyone you know are suffering anxiety, and finding life overly difficult .. please contact these agencies and get help!?

This week we pray for all people we know with **Disabilities...and Life Changing injuries**. Also for those who support them in any way? We also give thanks for the great courage and resilience of many people who live with disabilities... particularly within our Farming community.

Please remember to 'look out' for your neighbour? A phone call or just pop in can make all the difference ❤️ They say that **HOPE is the EXPECTATION that something GOOD is GOING TO HAPPEN** 🙏 So....

Hold me steady Lord. Let not winds or storms erode my roots! Let me be strong, like an oak tree, tall and grace filled, budding with expectant shoots, bending gently through each season, waiting patiently for change. **Hold me Steady Lord**, strong and healthy, and let my mind and spirit be united with you and Your will for me 🙏❤️
