Chaplains Prayer

“A (true) friend is always loyal, and a brother is born to help in time of need” (proverbs 17:17) So a true friend will be there(to prevent you falling) They will get in your way on your way down!?! A timely open rebuke from a friend can often **save the day!**? Support and advice though must always be uplifting and **never to overly criticise in a negative way....**

Generous God, fill our hearts with Thanksgiving for all the Blessings we receive on a daily basis. Expand our hearts and help us to be sensitive to the needs of our neighbours, to love and support them too as if they were family!!

You may need help yourself. If so here's useful numbers and organisations that will help you in your time of need!

FCN(farming community network) 03000 111 999 7am-11pm, help@fcn.org.uk

R.A.B.I 0808 281 9490 Last year the RABI gave out over £22k to farming families in need, and many received much needed help with all aspects of farming problems.

Samaritans call 116 123 All three organisations are non-judgemental and confidential.

Vets in Northern Ireland(and now beyond hopefully)are pledging help to support farmers Health...FCN are collaborating with them in this, together with **Macmillan Cancer support**. I've always thought that in their position visiting farms that vets are in a unique place to help in this area? If successful it could be extended UK wide....Vets themselves are also prone to stress related Wellbeing problems, so remember this when they are visiting. We can all help each other by being vigilant to each others needs!?

Tree planting has had alot of farming press hasn't it!? Whilst the principle is laudable there are not (as yet)the details available and problems such as the shortage of foresters and supporting finance etc. Also, We cannot end up losing productive farmland and reducing climate friendly food production which will only increase our reliance on imports from countries with much lower environmental credentials!?

Recreational based activities are, as ever popular though!?! I must get half a dozen ask me every year if I can sell them some land to plant trees on....also building land too!!

Our National NFU has been busy as usual on our behalf! Earlier in the year our President got an assurance from the Prime Minister re animal imports and trade in meat products that our food **Safety Welfare and Hygiene Standards** would **Not be compromised** within any Trade agreements! We are to be proud of what they(Nfu) have achieved in this area and hope beyond hope that the government don't renege on these promises 🤔 Teaching our children about food production is so important! During British Science week in the past year 1600 schools took part, and learned first hand from those that grow food how important core classroom science topics are across Agriculture. To be more communicable to children, the YFC ambassadors were involved with this teaching. Find out more at education.nfonline
