Vaccinations: Whole herd vaccinations to regular youngstock vaccinating, reminders, deliveries, and administration.

Scoring: Mobility, Condition, Rumen: Our VetTech is a ROMS trained mobility scorer, providing you with a clear and simple report helping to improve herd health and meet the increasing standards demanded by Red Tractor and many milk contracts. Each report shows the progress since the last assessment and problem cows are clearly identified for treatment if required.

Jade Scott-Dalgleish Our
New VetTech

Calf Routines: are new services we are offering for youngstock. These include growth checks/calf weighing, disbudding, vaccinations, colostrum immunity testing and reports. These routines ease your workload and ensure youngstock are getting quality and regular care, keeping every animal up to date with disbudding and vaccinations and taking the pressure off you. You can make use of these services at a frequency that works for your farm e.g. weekly, fortnightly or monthly.

Fly control: We have a new way to deal with the pesky flies that drive us all mad every year. Clover Friendly Flies are pteromalid wasps, also known as fly parasites. They attack fly larvae, reducing the number of larvae that turn in to flies. This is a sustainable approach to fly control, leading to less fly treatment being needed for your animals and in the parlour.

Small Holder Services: We are offering full detailed health calendars and services to help our smallholders stay on top of routine treatments, such as hoof care, vaccinations, faecal egg counts, worming and much more. Our VetTech will provide regular reminders for routine interventions and can attend your holding to give any help needed in administering treatment.

Samples: Our VetTech is trained to collect a variety of samples for diagnostic testing e.g.

Faecal egg counts, bloods, milk samples for disease identification and will issue reminders for routine testing.

Anything else?

Or if you just need extra hand for few hours, whether that is needing extra labour for your tb test, vaccinating, or even just getting sheep in from the field ready for lambing, give us a shout and we might be able to help. It can save you paying someone for all day or if you're struggling for staff.

Chaplains Prayer

Psalms 16:1 'Keep me safe My God, for in You I take refuge!'

Farmwork brings potential dangers, and so we pray for all responsible for communicating those dangers to others. We pray for all within our farming community whose safety maybe at risk and for anyone whose life has been affected by accident or injury

"May God shield you in the Valleys. May Christ aid you on the Mountains. May the Spirit Bathe and Cover You on the Slopes, on Hill, on Plain.... Wherever you are" ! This week sees the beginning of **Lent** ... known as a penitential season, when we may choose to give up something to recall the 40 days Jesus spent in the Wilderness! It's also good to know that 'Lent' means(old English) to Lengthen, when the days are gradually becoming longer and things are slowly awakening around us..Are we going to get another dry summer?!? **International Women's Day** is kept as a global day celebrating the social, economic, cultural and political achievements of women! The first gathering in 1911 was supported by over one million people, and it continues to mark a call to action for accelerating women's equality! Praise God for Women(especially in Agriculture)and the enormous contribution they make 🙏❤️😊

FCN have a range of useful resources on their 'Farmwell' platform around a wide variety of topics... included is a guide from the centre for addiction and mental health on how to talk about Suicide? Access the guide here <https://farmwell.org.uk/suicide/>

Last Wednesday Sarah Dyke MP visited us at the market. She was very impressed with all she saw and hadn't realised we had a new Health Hub premises...😊 Remember you can phone this number 07722093950 to make an appointment for foot clinic(very popular!) or physiotherapy! Leave a message and someone will return your call..
