Chaplains Prayer

Dear Lord God. All of our Farming relies on the good earth! Help us to take care of it, to cherish and nurture it, so that it remains in fine fettle to pass on to the next generation. Thank you for our farmers, and all those who serve farming; the machinery suppliers, feed manufacturers, vets, markets, insurance and financial etc. We pray that those farmers struggling in any areas of their lives will courageously seek help when needed 🙌🙏 We pray that the ongoing war in the middle East will soon be resolved...for the greater good of **The Whole of humanity** 🙏

Somerset Mental Health in Agriculture (**SMHAG**) can be contacted if you need immediate help with mental health and finding it difficult to cope? (You can see a Wellbeing/mental health nurse at our Health Hub too) becky@newleaf.uk.com Also, our usual numbers below:-

Here are the contact details you need if you'd like to chat about anything worrying you: Farming community network (FCN) 03000 111 999; or help@fcn.org.uk; RABI free helpline 0808 281 9490; Samaritans 365 days a year 116 123 jo@samaritans.org

The importance of Good communication is becoming ever more important.. especially in our rural areas!? Rural Broadband and mobile coverage still fall way short of what British farming businesses need? Last survey found that over 20% businesses were unable to access even a decent internet speed or even a mobile signal on their farms? In some circumstances, this can have very serious repercussions especially for safety of staff and Livestock in an emergency?

It's Good News on the Agri-climate front! 🙌 DEFRA(27.10.22) report 1. All Agricultural green house gas emissions decreased between 1990-2020(16%) 2. In same period emission intensity from cattle, dairy, pigs decreased. For sheep they remained same. 3. DEFRA farm practices survey indicated 64% farmers thought it important to consider GHG when making farming business decisions. 29% considered it wasn't important! 7% hadn't an opinion...

Take care and May God Bless you in all you do!
