enquiries@om.uk | 01749 343366 | om.uk

- Vaccinations • Scoring: Mobility, Condition, Rumen • Calf Routines • Disbudding • Fly Control • Small Holder Services
- Calf Weighing/Growth Rate Records • Colostrum Monitoring
- In-House Lab Services • Faecal Egg Counts • Samples • Sheep/Goat Hoof Care/ Trimming • Udder Flaming • Tail Clipping
- TB Testing • Medicine Deliveries • Freeze Branding

Vaccinations: Whole herd vaccinations to regular youngstock vaccinating, reminders, deliveries, and administration.

Scoring: Mobility, Condition, Rumen: Our VetTech is a ROMS trained mobility scorer, providing you with a clear and simple report helping to improve herd health and meet the increasing standards demanded by Red Tractor and many milk contracts. Each report shows the progress since the last assessment and problem cows are clearly identified for treatment if required.

Indie Scot-Dalglish Our
New VetTech

Calf Routines: are new services we are offering for youngstock. These include growth checks/calf weighing, disbudding, vaccinations, colostrum immunity testing and reports. These routines ease your workload and ensure youngstock are getting quality and regular care, keeping every animal up to date with disbudding and vaccinations and taking the pressure off you. You can make use of these services at a frequency that works for your farm e.g. weekly, fortnightly or monthly.

Fly control: We have a new way to deal with the pesky flies that drive us all mad every year. Clover Friendly Flies are pteromalid wasps, also known as fly parasites. They attack fly larvae, reducing the number of larvae that turn in to flies. This is a sustainable approach to fly control, leading to less fly treatment being needed for your animals and in the parlour.

Small Holder Services: We are offering full detailed health calendars and services to help our smallholders stay on top of routine treatments, such as hoof care, vaccinations, faecal egg counts, worming and much more. Our VetTech will provide regular reminders for routine interventions and can attend your holding to give any help needed in administering treatment.

Samples: Our VetTech is trained to collect a variety of samples for diagnostic testing e.g.

Faecal egg counts, bloods, milk samples for disease identification and will issue reminders for routine testing.

Anything else?

Or if you just need extra hand for few hours, whether that is needing extra labour for your tb test, vaccinating, or even just getting sheep in from the field ready for lambing, give us a shout and we might be able to help. It can save you paying someone for all day or if you're struggling for staff.

Chaplains Prayer

'Know Well the condition of your flocks, and give attention to your herds'(Proverbs 27:23)

I reckon Sheep shearing has had to be earlier this year due to the weather conditions!?. This job in particular is a very physically demanding one, requiring precision, agility and a strong back.. as well as done out of concern for the welfare and health of the sheep, The fleece have a value too... As I write on 6 July, we are all facing another Heatwave which will put added pressure on the farming community... And the animals they work with...

Funded Vet visits (for the poultry sector) otherwise known as Poultry Biosecurity Reviews are available as part of the **Animal Health and Welfare Pathway**. £430 is available per keepers who meet eligibility. The pathway is closed now for Cattle, Sheep and Pigs.. find more information on the gov.uk site.

Property Protection Trusts are available with most Wills.. to make sure, in the event of your death, that your property is passed on to those to whom you intend it to go(ie children, maybe from a previous marriage) Just another matter to think about I know, but, I believe for a farming family it's vital!?

With many farmers now looking at other important inheritance matters **First Registration** of the land they own is also important!?. A **Compliant Land Registry Plan** can provide a much greater degree of certainty regarding **Legal Title**, alongside other **Recognised Boundary Indicators**. This can obviate and reduce risks of disputes and miscommunication!?. Do have a chat with one of the professionals here at the market about it!?. Your family will Bless you for taking action now!!

Here's numbers you may need when seeking help? **FCN: 03000111999**, or help@fcn.org.uk **RABI: 08001884444**. Samaritans, call free on 116 123
My number is **07880770887**.

Health Hub 07722093950

We remember all those who's work is hard and demanding at this time, especially in these extreme conditions.. May God Bless and keep you all safe! Please look out to your **Neighbours too!** ❤️🙏
