ANNOUNCEMENT

It is with mixed emotions that we share the news that Kate Isgar will be leaving Frome Market Café.

We are very grateful for Kates hard work, warmth and commitment during her 3 years with us.

Kate has made a real contribution to the café's success, noticeably reaching last years finals of the 'Market Café of the Year' at the British Farming Awards.

Outside of the market Kate runs her own Beef farm and well established outside catering business and we still look forward to seeing her when she sells her store cattle here at Frome.

We wish Kate all the very best for the future and thank her for everything she has done for us and our customers here at Frome Livestock.

Chaplains Prayer

‘We can Comfort those in any trouble with the Comfort we ourselves have received from God! For just as the Suffering of Christ flows into our lives, so also through Christ our Comfort overflows!’ ❤️ 2 Corinthians 1:4-5...

Alot of people I meet at the market ask me what a **Chaplain**

does ? : Firstly, I am a market Chaplain because, having been a farmer myself, I understand Farming folk, so can talk to them on that level!? Primarily we are here to Listen! From that we can give Comfort, care and guidance.. personal(confidential and non judgemental) and point to business advice for anyone that needs it. People with problems don't (usually) want to talk about their spiritual beliefs, but this does often come up later!? So (together with my Farming Community Network) We can help others in many different ways by **Listening, Supporting.... and Connecting to Help where needed!?**

The Very hot dry conditions continue with no rain at all in our area 🥵 We remember those whose lives and businesses are being severely adversely affected by these extreme temperatures in any way..We Pray for rain to relieve the situation 🙏

I do ..and always have admired the way our farming industry develops and embraces new tech to improve the lives and productivity of the animals we look after!? **Nanobubbles** are ultra fine, microscopic gas bubbles that are infused into farm water systems! They increase the dissolved O² content which in the case of Poultry can improve their gut and overall health significantly! This greatly reduces mortality rates and subsequently profitability and also the need for chemical treatment. The Poultry industry is huge...I believe this development could be too!? Thinking..I wonder if carbonated (fizzy)water is healthier for us too!!!?

Here's numbers and emails for help if you need it!? : **FCN ...calls answered in person 7am-11pm 03000 111 999, help@fcn.org.uk RABI 0808 2819490, Samaritans 116 123 , jo@samaritans.org**

together**

Through our insurance products and services, we are here to protect you and your farming business against a range of risks.

For 120 years we've been putting farmers across the South West at the heart of what we do. To our Members, we're the local specialists that understand the challenges you face and are here to help.

From your very first conversation with us, to the moment a claim is paid out, we'll always do the right thing by you. But don't just take our word for it – ask your neighbours about us.
